Blown away by @BeneficialBio's work in Cameroon 🇨🇲! Producing local diagnostic enzymes marks a step towards self-reliance, igniting local industry. Open Source science catalyzing change – moving away from reliance on intercontinental supply chains, empowering local communities! #OpenSource #LocalInnovation

Amazed by @BeneficialBio's work in advancing STEAM education in Cameroon! 🌟 Their programs go beyond typical science lessons. After the workshops, participants can join the lab's long-term projects or even propose their own! #STEAMEducation #EducationForChange
